ABSTRACT

In order to assess the effectiveness of occupational education and training, guidance and counseling, and job placement assistance received by students in the 13 Regional Institutes comprising Indiana Vocational Technical College (IVTC), a questionnaire was designed and mailed to 947 1973-74 IVTC graduates during spring 1975. The 545 completed questionnaires reflect a 58 percent response rate. This document tabulates responses by questionnaire item for the total survey population, for each instructional program, and for each IVTC Region. In addition, a list of employers of respondents is appended, along with employment location, number of IVTC graduates employed, and the instructional program areas of these graduates. Responses indicated that 90 percent of the graduates were either employed or involved in other endeavors of their own choice. Of the employed graduates, 83 percent had jobs related to their IVTC training. Sixty-seven percent of the respondents indicated that the training received at IVTC prepared them adequately or better for their present positions, and 87 percent rated that training as average or above. Respondents had located their presents jobs through a variety of sources, the most common (37 percent) being self-search, and the next most common (14 percent) being IVTC placement. (NHM)

PREFACE

This document represents an effort on behalf of Indiana Vocational Technical College (IVTC) to maintain communications with and solicit selected responses from the 1973-74 school year graduates of the thirteen respective Regional Technical Institutes.

Efforts were made to assess the effectiveness of occupational education and training, guidance and counseling, and job placement assistance received by the students. Efforts were also made to assess the ability of the student to enter and advance into their chosen career with competence and assurance.

This study was conducted by Central Administrative Staff Personnel of the College in cooperation with the Regional Administration.

Special acknowledgement is extended to Linda Bowen for the constructive criticisms and valued suggestions, to Dianne Dillow for the many tabulations, computations and preliminary typing and to Betty Hehner for assistance in the preparation and typing of this report.

CHAPTER 1, INTRODUCTION

Background Statement

Startling developments in science and technology and a rapidly changing economy are effecting important changes in the structure of our society. Specific jobs are becoming obsolete, old occupations are disappearing and unforeseen occupations are emerging. The pressures of a rapidly changing technological society further enhance the need for follow-up studies on graduates to provide the user with appropriate data needed in developing plans, solving problems, improving instruction and assessing progress toward achieving the goals and objectives of students, the College and the community.

Educational institutions seek to determine how effectively they are meeting the current and future needs of those served which is inherent in the constructive changes produced within students, their community, and society in general.

A continuing major problem is separating the "value added" by the school experience as compared to the effects of non-school activities. Therefore, the findings from follow-up studies should be viewed as components of a comprehensive system for evaluation of instructional and supportive services.

Selected data should be systematically gathered as students apply for admission, subsequent registrations, upon graduation or withdrawal.

Educational institutions are being held more and more accountable for their output product and the utility of such in the market place. Since the most important person at the College is the student, what happens while attending and after they leave Indiana Vocational Technical College (IVTC), must be of primary concern to those involved in the educational process. Therefore, it is incumbent upon IVTC to maintain contact with its graduates for many reasons, including pursuit of answers to questions, such as:

1. To what degree are IVTC's graduates employed in occupational areas directly related to preparation for that occupation at the College?

2. How influential was IVTC in preparation of the student for successful occupational employment?

3. What IVTC programs should be further refined in an effort to better correlate the terminal objectives of the program design with the needs of the student and respective targeted employer cluster?

4. How adequate was quality control in assuring preparation of the graduate for employment?

The aforementioned issues are among many others confronting educational administrators as they search for the ingredients necessary to make informed decisions.

A search was made for follow-up studies previously conducted by IVTC at the state level. This search revealed that two follow-up studies were made: (1) "Health Occupations Follow-Up Study, 1973"; and (2) "Follow-Up Study, IVTC Graduates, 1972-73 School Year". The health occupations study was directed at graduates from instructional programs administered under the IVTC Health Occupations Instructional Division, and the Follow-Up Study on 1972-73 IVTC Graduates was directed at all 1972-73 IVTC School year graduates. A review of these documents left the impression that an improved survey instrument design would be necessary to obtain more valid and reliable data to aid in the decision making process, continually refining such for use at specified intervals as determined by the College.

This study represents an effort to achieve a desired level of validity and reliability.

Purpose For The Study

The purpose of this study was to maintain communications with, and solicit selected responses from, the 1973-74 IVTC graduates of the 13 respective Regional Technical Institutes. The scope of the study extends from data compiled while the student attended IVTC, and as an alumnus of the College including their plans for the future.

Efforts were made to assess the effectiveness of occupational education and training, guidance and counseling, and job placement assistance received by the student. Efforts were also made to assess the ability of the student to enter and advance into their chosen career with competence and assurance.

The findings from these data should enhance the ability of IVTC to better meet the needs of students, the College, employers of graduates, and the community in general.

Limitations

This study is limited to some extent in validity and reliability by the occasional small number of responses by program within a particular IVTC Regional Institute.

How The Study Was Conducted

Pursuant to review of previously administered follow-up studies within the IVTC system and other data available across the nation, a follow-up questionnaire and supporting cover letters were developed. The questionnaire and initial cover letter was mailed to the 1973-74 IVTC graduates during the Spring quarter of 1975 in keeping with a list provided by Alumni Affairs. Three additional mailings were made to non-responding graduates at three week intervals.

Responses to the questionnaire or remarks made thereon were compiled by item and instructional program for each IVTC Region; combined totals by item for respective IVTC Regions; combined totals by instructional program for the College as a whole and combined totals for the College. Remarks made by respondents were compiled by program for each Regional Institute and forwarded to the respective Regional Vice President for action deemed appropriate.

These data and findings therefrom should better enable the College to further improve its level of accountability for its output product.

CHAPTER 2. RESPONSES TO QUESTIONNAIRE AND ANALYSIS

Introduction

This chapter addresses responses made to a questionnaire mailed to 947 1973-74 school year graduates from the 13 Regional Institutes of the College. Included also are comments resulting from an analysis of those responses. The questionnaire and cover letters are included in Appendix A. Five hundred forty five of the 947 or 58% of the graduates responded. The 545 completed questionnaires were organized and tabulated as follows:

(1) Combined responses by questionnaire item for the College, see Appendix C.

(2) Combined responses by instructional program for the College, see Appenix D

(3) Combined responses by questionnaire item for each IVTC Region, see Appendix E

(4) Combined responses by instructional program for each IVTC Region, see Appendix F

Responses to Questionnaire by Item and Analysis

Each questionnaire item was analyzed and a summary included below, however, additional details are included in the appropriate appendixes.

ITEM 1: WHAT IS YOUR CURRENT EMPLOYMENT STATUS?

COMMENT: Three hundred ninety-two or 72% were employed full-time, 38 or 7% part-time, 2 or .4% in armed services, 54 or 10% unemployed not looking for work, thus accounting for 486 or 90% of the graduates within those categories. Twenty-six or less than 5% indicated that they were unemployed and looking for work.

ITEM 2: NAME AND ADDRESS OF EMPLOYER.

COMMENT: A compilation was made of the names and addresses of employers, the students' area of study, and the number of IVTC students responding that were employed by that firm. A compilation of this information is in Appendix G, and may be used to follow-up with employers of IVTC graduates.

ITEM 3: HOW MANY FULL-TIME JOBS HAVE YOU HAD SINCE ATTENDING IVTC?

COMMENT: Three hundred twenty-four or 59% indicated that they had only one job, 80 or 15% two jobs and 13 or 2% three jobs since leaving IVTC. Thus, 448 or 82% of the 545 respondents had one job and no more than two jobs at the time the survey was conducted.

ITEM 4: IF YOU CHANGED JOBS SINCE ATTENDING IVTC, CHECK THE APPROPRIATE REASON.

COMMENT: Responses indicate that sixty-four or 12% changed jobs due to promotion or a better job; 15 or 3%, marriage and maternity; 23 or 4%, did not like the type of work, 17 or 3%, moved from the area; 24 or 4%, no more work available; 11 or 2%, for further full-time study; 14 or 3%, personality conflict; and 31 or 6%, for other reasons. Comments made by the 6% who listed other reasons were as follows: temporary work - laid off, offered job with better benefits, better pay; too far to drive on a daily basis; air pollution caused health problem necessitating change of residence; better working hours; opportunity to be employed in the area for which trained; personal reasons; better shift and to gain desired experiences.

ITEM 5: WHAT IS YOUR PRESENT POSITION OR JOB TITLE?

COMMENT: Responses to this item were unable to be effectively categorized and tabulated. They were representative of the broad array of respective employing firms.

ITEM 6: HOW CLOSELY RELATED IS THE TRAINING RECEIVED AT IVTC TO YOUR PRESENT JOB?

COMMENT: Two hundred one or 37% indicated that they were employed in the job for which they were trained, 180 or 33% were employed in a job closely related to their IVTC training and 68 or 13% were employed in a job slightly related to their IVTC training. The three above categories combined indicates that 449 or more than 83% of the respondents were employed in jobs related to their IVTC training. The ninety-eight or 18% of the respondents who indicated that they were employed in a job not related to their IVTC training listed reasons such as; "now attending baccalaureate institution", "could not gain employment in the area for which trained", "only employment available at that time", "have-not found a job paying as much or more than the job currently held", "low entry pay level", "had a hard time getting a job and was the first one that came along", "never allowed to perform in area for which trained","training insufficient to gain job in my field", "desired not to change job after graduation for reasons of maternity", "excessive commuting distance", "needed job promptly", "seasonal job", "current job pays twice as much as available related job", "doctors unaware of IVTC", "did not complete training", "expanded interest to specialized field and received training in that area", "didn't like area for which trained", "poor working hours", "enjoy another field of employment", "can't locate part-time employment related to my area of training", "obtained training for personal use", "unable to locate job", "did not pass state examination", "not qualified for job" and "to risky to change to job related to my training because of the unstable economy".

Thus, many and varied reasons exist for the respondents not to have been employed in a job related to their IVTC training, and each from their individual view points may possibly be valid.

ITEM 7: HOW WELL DID YOUR IVTC TRAINING PREPARE YOU FOR YOUR PRESENT POSITION?

COMMENT: Ninety-seven or 18% indicated exceptionally well, 159 or 29% well, and 107 or 20% adequately. Thus, 363 or 67% indicated adequate or better while 56 or 10% indicated poorly with 121 or 22% not responding.

The 10% who rated their IVTC training as poor included explanations, such as, "IVTC training was for a different job", "job unrelated to IVTC training", criticism of instructors, criticism of equipment and facilities, etc.

ITEM 8: HAVE YOU RECEIVED A JOB PROMOTION SINCE LEAVING IVTC?

COMMENT: One hundred forty-three or 26% indicated yes, 294 or 54% indicated no, and 103 or 19% did not respond.

ITEM 9: HOW MUCH DO YOU ESTIMATE YOUR SALARY HAS INCREASED AS A RESULT OF YOUR IVTC TRAINING?

COMMENT: Although the survey was conducted approximately six months subsequent to the Spring Graduation exercises, forty-three or 8% indicated over 50%, 26 or 5% indicated 50%, 30 or 6% indicated 40%, 24 or 4% indicated 30%, 40 or 7% indicated 20%, 49 or 9% indicated 10%, 44 or 8% indicated 5%, 151 or 28% indicated none, and 133 or 25% did not respond. Two hundred twelve or 39% indicated that they increased their salary at least 10% as a result of their training at IVTC.

ITEM 10: WHO ASSISTED YOU MOST IN OBTAINING YOUR PRESENT JOB?

COMMENT: Two hundred one or 37% indicated they located the job themselves, 76 or 14% gave credit to IVTC placement office, faculty, and/or staff, 60 or 11% through friends and relatives, 21 or 4% through previous employer, 21 or 4% by other means, 15 or 3% through State employment agencies, 12 or 2% through newspaper and/or magazine ads, 9 or 2% through private employment agency, and 125 or 23% did not respond.

Those indicated "other" included remarks, such as: "local pastor", "self-employed", "was already employed", "cooperative work experience", "high school", or "manager at hospital".

ITEM 11: HOW FAR IS YOUR CURRENT JOB FROM YOUR HOME TOWN?

COMMENT: Two hundred sixty-one or 48% indicated that they were employed within their home town, 129 or 24% indicated within 50 miles or less, 13 or 2% indicated more than 50 but less than 75 miles, 34 or 6% indicated more than 75 miles and 103 or 19% did not respond. It may be noted that 390 or 72% were employed within their home town or within 50 miles of their home town.

ITEM 12: HOW LONG HAVE YOU HELD YOUR PRESENT JOB?

COMMENT: Too soon after graduation to be of significant value.

ITEM 13: WHAT SPECIFIC THINGS ABOUT THE COURSE(s) AND/OR PROGRAM AT IVTC HAVE YOU FOUND TO BE MOST USEFUL TO YOU AND/OR LEAST USEFUL TO YOU IN YOUR PRESENT JOB AND WHY?

COMMENT: These responses were organized by Instructional Program by Region and distributed to the respective Regional Vice Presidents and selected Central Administrative Staff Members for review and appropriate action.

ITEM 14: PLEASE RATE THE TRAINING YOU RECEIVED AT IVTC.

COMMENT: One hundred nine or 20% responded excellent, 211 or 39% above average, 149 or 27% average, 24 or 4% below average and 4 or .7% poorly. Four hundred sixty-nine or 87% rated the training received at IVTC average or above while 28 or 5% gave ratings below average.

The 28 or 5% of the respondents who gave below average ratings commented as follows: "second year has too many credit hours to carry and gain full benefit", "criticism from employer about dearth of knowledge about short cuts", "the instructor was not qualified-pushed too much", "a rushed course", "should have more experience on the job", "very good instructor-but the material covered was insufficient to pass state test", "no commercial application was given".

ITEM 15: WOULD YOU RECOMMEND IVTC TO A FRIEND?

COMMENT: Four hundred twenty-one or 77% indicated yes and 40 or 7%, no. The 7% who responded no indicated the following: "lack of accreditation", "credits not transferable to baccalaureate degree", "poor placement", "lack of comparable prestige with baccalaureate level training - employers tend to give good paying jobs to university graduates", "not well equipped to meet the challenge of the jobs offered", "individuals can obtain better training if they received on-the-job training", "problems in program design", "ill-prepared faculty", "poor counseling", "poor administration", etc.

ITEM 16: HAVE YOU RECEIVED ADDITIONAL FORMAL EDUCATION OR TRAINING SINCE LEAVING IVTC?

COMMENT: Ninety-six or 18% indicated yes and 406 or 75%, no. Of the 18% responding yes, 46 or 8% indicated that they were receiving education or training on a part-time basis and 32 or 6% on a full-time basis.

ITEM 17: ARE YOU INTERESTED IN RETURNING TO IVTC FOR ADDITIONAL TRAINING?

COMMENT: One hundred fifty-two or 28% indicated yes and 312 or 57%, no.

ITEM 18: BASED ON YOUR EXPERIENCES, WHAT SUGGESTIONS DO YOU HAVE FOR IMPORVING IVTC COURSE(s) AND/OR PROGRAMS IN WHICH YOU STUDIED? (PLEASE EXPLAIN)

COMMENT: Comments listed in Item 18 were (from the returned questionnaire) categorized by program and forwarded to the Regional Vice Presidents of the respective Regional Institute for action as deemed appropriate.

CHAPTER 3, SUMMARY

This follow-up study is the second one conducted of all IVTC graduates on a statewide basis. It was done in cooperation with the 13 Regional Institutes of the College, encompassing the total State of Indiana.

A questionnaire was developed and mailed to 940, 1973-74 IVTC graduates during Spring quarter 1975. Three follow-up mailings were made to non-responding graduates, which resulted in 545 or a 58% return.

The combined responses received from the 13 IVTC regions were tabulated by questionnaire item and percentages calculated. These data and other details are included in Appendix C.

The response to each questionnaire item was tabulated and percentages calculated by instructional program for the College, including the total responses of graduates from each of the 13 IVTC Regional Institutes of the College. These data are included in Appendix D.

The response to each questionnaire item, by IVTC Region, was compiled and percentages calculated, for the 13 respective IVTC regions. These data are included in Appendix E.

The responses to each questionnaire item were tabulated and percentages calculated by instructional program for the 13 respective IVTC regions. The relatively small number of responses by program in some instances tends to limit the validity and reliability of indicators evolved from the tabulations and percentage calculations. Although such calculations were made, they are not included in this publication. A copy of these calculations (Appendix F) were forwarded to the respective Regional Vice President and selected members of the central administrative staff for action as may be deemed apppropriate.

A list was compiled of employers of responding IVTC graduates, employment locations, number of IVTC graduates employed and the instructional program area in which the student received training while attending IVTC. These data are included in Appendix G.

CHAPTER 4, FINDINGS

Listed are brief statements of findings as a result of the survey.

1. That 545 or 58% of the 947 graduates surveyed responded to the questionnaire.

2. That 486 or 90% of the respondents were either employed or involved in other endeavors of their own choice.

3. That 388 or 72% of the 545 respondents are employed with firms within the State of Indiana, and that 25 or 5% indicated employment outside of the State. One hundred-twenty-seven or 24% did not respond to this item.

4. That 443 or 82% of the 545 respondents indicated having held two or less full-time jobs since graduation.

5. That 449 or 83% of the respondents were employed in jobs related to their IVTC training.

6. That 363 or 67% of the respondents indicated that the training received at IVTC prepared them either adequately, well or execptionally well for their present position.

7. That 143 or 26% of the respondents received a job promotion since leaving IVTC.

8. That 212 or 39% of the respondents indicated that their salary was increased at least 10% as a result of their training at IVTC with 13% receiving 50% or more increase.

9. That the level of assistance received by the respondent in obtaining the job held at the time the survey was conducted is as follows:

    a) 201 or 37% located job themself
    b) 76 or 14% IVTC placement, Faculty, Staff
    c) 60 or 11% friends and relatives
    d) 21 or 4% previous employer
    e) 21 or 4% other means
    f) 15 or 3% State Employment Agenices
    g) 12 or 2% newspaper & magazine ads
    h) 9 or 2% private employment agencies
    i) 125 or 23% did not respond

10. That 390 or 72% of the respondents were employed either within their hometown or within a 50 mile radius.

11. That graduates were very vocal with their comments, which were compiled, categorized, and provided to the respective Regional Vice Presidents.

12. That 469 or 87% rated the training received at IVTC as either average, above average or excellent.

13. That 421 or 78% of the respondents indicated they would recommend IVTC to a friend.

14. That 96 or 18% of the respondents have received additional training since leaving IVTC.

15. That 152 or 28% indicated an interest in returning to IVTC for additional training.

CHAPTER 5, RECOMMENDATIONS
1973-74 FOLLOW-UP STUDY

The following recommendations evolved from the "Follow-up Study, IVTC Graduates, 1973-74 school year":

1. Follow-up studies be conducted on all students who matriculate and leave IVTC for one quarter, whether they reach their educational goal or interrupt their study at the College.

2. Follow-up studies be conducted on all students included in item 1 above, by respective school year, with such period beginning with the summer quarter and extending through the spring quarter.

3. Follow-up studies be conducted on students identified in items 1 and 2 above at the following intervals subsequent to the end of the spring quarter each year: Six months, one and one half years, two and one half years, three and one half years, and five and one half years.

4. Particular attention be given by the Regional Institute faculty and staff in keeping with a statewide coordinated plan to orient students to the need and importance of cooperating in follow-up studies as well as the procedures to be followed and practical use to be made of such information. This should be accomplished between the time the student matriculates into the institution and the point in time when they leave.

5. A high priority be assigned to providing the capability and means of making the necessary tabulations and computations of Follow-up study data utilizing electronic data processing methods and techniques.

6. Item 9 of the survey instrument used in this study be considered for revision prior to re-use, possibly to deal with intervals of dollars earned per period of time rather than percent increase in salary.

7. Item 12 of the survey instrument used on this study be considered for revision prior to re-use, in an effort to establish its usefulness in keeping with desired objectives.

8. Additional emphasis be placed by the College on the placement of students.

9. Additional attention be given by the College to articulation of curriculums with other institutions within the State of Indiana, within the parameters of its assigned mission.

10. A system be designed and implemented that would document the relevant opinions of IVTC graduates as held by their respective employers.

11. A system be designed and implemented that would assess and bring into focus the manpower training needs of the State of Indiana as relates to the mission of the College.

CHAPTER 6, RECOMMENDATION
1972-73 FOLLOW-UP STUDY

The following recommendations evolved from the Follow-up Study, IVTC Graduates, 1972-73 school year.

1. A follow-up study be made on the 1972-73 IVTC graduating class in 1975, 1977 and 1982 and of each successive class at intervals of 1, 3, 5 and 10 years, subsequent to their respective graduation.
2. A system be designed and implemented that would document the relevant opinions of IVTC graduates as held by their employers.
3. Subsequent surveys conducted employ follow-up measures as appropriate to significantly increase the number and percentage of responses to the respective questionnaire.
4. Job placement efforts of IVTC graduates be reviewed and reinforced as appropriate.
5. The questionnaire be reviewed and revised in a manner that will incorporate a desired level of validity and reliability.
6. That a system be designed to assess and/or bring into focus the manpower training needs of the state.

IVTC
INDIANA VOCATIONAL
TECHNICAL COLLEGE

Date

Dear Graduate:

Indiana Vocational Technical College is striving to offer the best possible instructional programs for its students. This can be accomplished more effectively if you would share your many experiences while at the College and on the job by completing and returning the enclosed questionnaire. Your responses will be kept confidential and serve an extremely valuable purpose for the College. It will also become a part of a resource for providing timely occupational information for incoming students. May we have your completed questionnaire by March 10, 1975?

We wish to thank you in advance for your cooperation and extend our best wishes for a bright future. If we may be of service to you at any time, please do not hesitate to call upon us.

Very truly yours,

____

IVTC
INDIANA VOCATIONAL
TECHNICAL COLLEGE

Date

Dear Alumnus:

Several weeks ago you were mailed an IVTC Follow-up Questionnaire on graduates. As was indicated in the original letter, the information received from you will be of extreme value to the College and its future students.

In the event you did not receive the Questionnaire, a duplicate copy is enclosed for your convenience. It is our hope that you will be able to take a few moments to look over the Questionnaire and complete the questions that apply to your individual situation.

If you have already returned the Questionnaire within the last few days, please disregard this letter and accept our appreciation for your assistance and consideration.

Sincerely,

____

Dear Alumnus:

Recently, you received a second Follow-up Questionnaire from us. According to our records, we have not yet received your reply.

Once again, we would like to ask your cooperation in completing this Questionnaire. It is of utmost importance that we have as much information as possible to help improve the programs of the College and provide timely occupational information for in-coming students.

Please complete and return the enclosed Questionnaire today.

Thank you for your cooperation and assistance.

Sincerely,

(signature)
